

As all St. Patrick parishioners may know, the Nonpareil made an announcement some weeks ago regarding the construction of a YMCA directly across the street where the day care and parking lot are located. Per the article, the YMCA would like to be operating by Fall 2015.

The parish has been in contact with Mercy Hospital and representatives of the YMCA. Both are aware of the parish's concern regarding availability of future parking. No one knows the exact time when construction would begin or what the end project and lot will look like. Nevertheless, the parish office has already been looking into various options of what to do about parking during YMCA's construction. Only time and discernment will make those details apparent. When those details become available, they will be conveyed to you.
